Figma · Figma Dev Mode · Framer · Canva · Figma AI / Make · Google Stitch · Gemini · Claude · Lovable · Runway · Kling AI

EXPERIENCE

Screenit

Chennai, Tamil Nadu
Nov 2025 – Jul 2026

Associate UI/UX Designer

- Designed web and mobile product experiences with a focus on usability, consistency, scalable design patterns, and clear user journeys.
- Redesigned dashboards by improving information architecture, navigation, content organization, and visual hierarchy.
- Designed mobile interfaces and interactive prototypes for an HRMS application.
- Created user flows, wireframes, high-fidelity UI screens, reusable components, and interactive prototypes in Figma, collaborating with product and development teams for developer handoff via Figma Dev Mode.

Netphenix IT Solutions

Chennai, Tamil Nadu
Oct 2024 – Jan 2025

Product Design Intern

- Contributed to the redesign of Translingua, a voice translation platform, creating user flows, wireframes, and high-fidelity UI designs for key product journeys.
- Collaborated with stakeholders to understand user needs and refine product experiences through iterative feedback.
- Received a token of appreciation for delivering outstanding design work.

NMS Software

Jan 2024 – Aug 2024

Product Design Consultant

- Designed web and mobile interfaces based on business goals, product requirements, and user needs, developing user flows, wireframes, prototypes, and high-fidelity UI screens.
- Applied responsive design, visual hierarchy, and reusable design patterns to improve navigation and usability.
- Collaborated with stakeholders to clarify requirements and refine designs through iterative feedback.

CoinDCX Project
Digital Finance and Cryptocurrency Product
Aug 2023 – Dec 2023

Employee Background Verification Application
Jan 2023 – Jun 2023

- Product Design Consultant
- Contributed to UI/UX design for a digital finance and cryptocurrency product, designing user flows, wireframes, high-fidelity interfaces, and interactive prototypes.
 - Simplified complex financial information through clear layouts, hierarchy, and interaction patterns.
 - Collaborated with stakeholders to review requirements and improve design solutions.

- UI/UX Design Consultant
- Designed UX and UI solutions for an employee background verification application, creating user flows, wireframes, high-fidelity screens, and prototypes for key verification journeys.
 - Simplified verification workflows by organizing information and reducing unnecessary interaction steps.
 - Designed clear forms, status views, dashboards, and process-related interfaces.

FREELANCE UI/UX & PRODUCT DESIGN

Ozone Engineers — Corporate Website Redesign
2026 – Present

- Freelance Product Designer
- Redesigned the corporate website with a modern, professional, conversion-focused experience, reworking information architecture, navigation, and content presentation.
 - Designed responsive interfaces for Home, Products, Applications, About, Resources, Media/Insights, and Contact pages.
 - Developed wireframes, high-fidelity UI screens, and interactive prototypes in Figma.

Independent Projects
2025

- Freelance UI/UX Designer
- Delivered UI/UX design solutions for independent web and digital product projects.
 - Worked across requirements analysis, ideation, user flows, wireframing, UI design, prototyping, and final handoff.
 - Created responsive layouts and high-fidelity interfaces in Figma.
